Forecast For The United Kingdom
Issued by Met Office Exeter
at 1600 on Tuesday 27 Jul 2021

++ Valid for broadcast between 1800 and 0600

Headline:
Heavy showers in the south, heavy rain across the north.

This Evening and Tonight:
Heavy showers across the south of the UK will fade this evening leaving many places dry overnight. Showers in the north will continue and merge into longer spells of heavy rain across Scotland overnight.

Wednesday:
Heavy rain continues across northern Scotland with a risk of flooding in places. Sunny spells and heavy showers across other parts of the UK.

Outlook for Thursday to Saturday:
Showers, heavy at times, for many areas Thursday, driest in the southeast. Sunny spells and showers for many Friday and Saturday, heaviest in the south, driest in the north.
